

TOWNSHIP of/CANTON de  
**NORTH  
STORMONT•NORD**  
A good place to grow  
Ou on cultive la croissance

St. Patrick's Day 2020 will go down in history for a very unique reason, because rather than sharing and celebrating this age old tradition, all levels of Government in Canada and around the World are promoting and urging responsible behavior in dealing with the challenge before us..... COVID-19.

North Stormont is trying to minimize exposure while maintaining all necessary services. A complete e update is posted on our website [www.northstormont.ca](http://www.northstormont.ca)

Please respect the measures we have implemented to reduce the possible exposure of this virus on our citizens and staff. Among the many attributes our communities are known for, none is more important at any time than the strength of our support for our families and neighbours. This resolve has been tested before as it is now. I have no doubt we will come out of this challenge stronger as a municipality than we were and perhaps more appreciative of what we take for granted every day.

If you have questions or concerns, our staff is working but only available by phone or email. Your Council members are also available to assist in whatever capacity they can.

Sincerely,  
Jim Wert  
Mayor
